The meteor flag of England
Shall yet terrific burn;
Till danger's troubled night depart,
And star of peace return,

—Thomas Campbell

PEOPLE OF THE CORRIDOR

FIRST TO BEAR THE BRUNT of the German army's invasion of Poland were the inhabitants of the territory adjacent to disputed Danzig, at the northern end of the "corridor." Germany claims a majority of these people are Germans, but Poland maintains that

a 90 per cent. majority are Poles. The actors in the folk play (left) and the mother and child (right) are Kaszubes, who have lived on the Baltic coast for centuries. A traditional saying of theirs: "Without Poland, no Kaszubes; without Kaszubes, no Poland"

ONE OF POLAND'S NATIONAL HEROES is a poor fisherman who died in 1923. He was Anthony Abraham, and his grave is shown at left. Fired by love for his country, Abraham went to Versailles in 1919, argued for Polish freedom with Lloyd George, Woodrow

Wilson and Clemenceau. In his dealings with the boundary commission he managed to gain valuable territory for Poland and the Kaszubes, who were his people. At right is a typical Kaszube family, descendants of an ancient Slav tribe which migrated northward

POLAND BRAVELY RESISTS INVADING GERMAN ARMY

THE POLISH REPUBLIC, victim of a vicious attack by Nazi Germany, refused to co-operate with Hitler's plans for a quick victory and has fought back valiantly. Cheered by the entry of Britain and France into the conflict to keep their pledges to

Poland, the Poles have put up a stout resistance. The picture above, showing Polish infantry advancing, indicates the prairie-like terrain on which the Germans have to fight. Under ruin, it turns to deep, clinging "gumbo," seriously hampering mechanized forces

CANADA'S NAVAL TRAINING SHIP

GUARDIANS OF CANADA'S COASTS receive a thorough grounding in "good, old-fashioned seamanship" aboard the three-masted training ship *Venture*, shown above leaving Halifax harbor for a cruise. A daily routine is "going over the mast," up one side, down the other (right)

THE CADETS LEND A WILLING HAND when the boatswain pipes "all hands to the boat," for it means there will be no more pulling

at the oars that day. The vessel has a 1,000-mile cruising radius, carries a crew of 40, of whom 24 are boys in training

CANADIAN PILOTS IN R.A.F.

CANADIAN PILOTS TRAINING in England study an aerial map of their "objective." Left to right: H. A. G. Smith, H. F. Burns and P. S. Turner

PILOT K. M. LAIRD learns not only how to fly an airplane, but to make emergency mechanical adjustments

THE LAST WAR PROVED that Canadians are among the world's finest aerial fighters, and many are training in England. Among

them are N. D. Edmond, A. L. Edy, A. D. Grassick, R. G. English, M. E. Pollard, M. F. Burns, K. M. Laird, A. G. Egerton, J. A. Shepard

FRANCE AGAIN AT BRITAIN'S SIDE IN BATTLE

FRANCE'S FAMED FOREIGN LEGION is shown marching past the President during the nation's Bastille Day celebration and "show of strength". These husky fighting men, who were brought to France this year for the first time since shortly after the war, are defending the North African colonies

PARIS PREPARED for attack from the air: President Lebrun of France, (centre, in bowler hat) is shown, accompanied by army officers, inspecting anti-aircraft guns placed in position in the Esplanade des Invalides

"HONOR AND COUNTRY": The inscription on the foredeck of a French torpedo boat reminds the matelots of their cause. Above, the tricolor waves bravely

THE KING LOOKED ON while Britain's navy rehearsed the manoeuvres now being put into practice in active service. Between the mighty guns of H.M.S. Royal Oak are H.M.S. Royal Sovereign, Revenge and Ramillies

SHE THOUGHT: "ANOTHER WOMAN" * SHE SHOULD HAVE BLAMED HER ONE NEGLECT

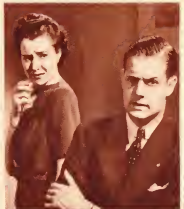

She was a Perfect Housekeeper. Certainly nobody could say she neglected her home. She kept that always fragrant clean.

... a Wonderful Cook. She never neglected to have hot meals tempting, dainty—and she always served them piping hot.

... an Ideal Mother. Her youngster was always clean, sweet, immaculately cared for. No one could say he was unkempt.

Yet he became indifferent. Yes, it seemed as if the only neglect was on his side. She sought vainly for the reason.

She thought: "Another Woman," the first and natural thought of every "neglected" wife. But in this instance she was wrong.

BUT...
She was careless

about Feminine
Hygiene

Let "Lysol" Help YOU to Avoid this One Neglect

If YOU yourself are in doubt on the important subject of intimate feminine hygiene ask your doctor about "Lysol".

For half a century "Lysol" has earned the confidence of many doctors, nurses, clinics, and wives, as a clean, wholesome preparation for feminine hygiene use. Some of the reasons are . . .

- 1—Non-Caustic . . . "Lysol", in the proper dilution, is gentle and efficient, contains no harmful free caustic alkali.
- 2—Effectiveness . . . "Lysol" is a pow-

erful germicide, active under practical conditions, effective in the presence of organic matter (such as dirt, mucus, serum, etc.).

3—Spreading . . . "Lysol" solutions spread because of low surface tension, and thus virtually reach out germs.

4—Economy . . . "Lysol" is concentrated, costs only about one cent an application in the proper dilution for feminine hygiene.

5—Odor . . . The cleanly odor of "Lysol" disappears after use.

6—Stability . . . "Lysol" keeps its full strength no matter how long it is kept, how often it is uncorked.

THE ARCTIC IS HIS DIOCESE

"FLYING BISHOP OF THE ARCTIC", Rt. Rev. A. L. Fleming recently returned from his annual tour of his diocese—which is 2,250,000 square miles in extent. To the Eskimos the bishop is "meenester puk-puk", which means "very high minister". On his trip the bishop's plane was unreported eight days, but his office cheerfully reported: "The bishop always turns up!"—and he did

AN ENTHUSIASTIC PHOTOGRAPHER as well as an eminent churchman, Bishop Fleming always brings back, from the frozen north, dozens of pictures of his parishioners. He titled this one "Eskimo madonna and child"

Proper hair care too much trouble?

JUST because you can't visit the hairdresser every week, don't let your hair and scalp suffer. With Danderine handy, that's needless!

For thanks to its active formula, using Danderine wastes no time, and is no trouble. Just sprinkle a few drops of Danderine on your brush or comb before you arrange your hair. Or if you like, apply it directly with your finger tips. Dan-

derine does not depend on friction to be effective; therefore, tedious massage is not necessary.

Use Danderine this way, daily, and keep your scalp feeling more "alive"—your hair free from ugly loose dandruff; looking more lustrous, and holding its wave longer! Start now. A bottle of Danderine lasts many, many days, and costs very little at any drugstore.

JUNE DUPREZ, leading lady in the British film extravaganza, "The Thief of Baghdad," makes friends with Spot, the cheetah, which also appears in the film being made at Denham

JOY HODGES had to "sign away love" with a \$125,000-a-year movie contract which prohibited marriage. But Cupid caught up with joy, and she renounced that income to marry a newspaperman

MARGARET LOCKWOOD fits so well into the California background that she looks like a "native." But the lovely film newcomer only recently arrived from England under contract

SUSPENDED FROM THE CEILING, this pretty nurse is "getting the feel" of falling through the air without actually making a parachute jump
